PACKAGING PARTS

GLENMAR TECHNOLOGY

U.S.-Manufactured Replacement Parts for the Nonwoven Industry

At Glenmar Technology, we specialize in manufacturing high-quality, cost-effective replacement parts for hot melt adhesive systems used in nonwoven and packaging applications. Whether you're running Nordson® or ITW Dynatec® equipment, our direct replacement parts are built to deliver the same performance, at a fraction of the cost.

For over two decades, factories across North America, Latin America, and Europe have relied on Glenmar to reduce operating costs without compromising reliability or uptime. From nozzles and modules to filters and applicators, our parts are engineered and assembled in the USA, using top-grade materials that meet or exceed OEM standards.

Nonwoven manufacturers trust Glenmar for high-quality replacement parts that deliver up to 50% savings compared to OEMs. Trusted by leaders like Kimberly-Clark, Domtar & Ontex, our parts are backed by fast shipping, reliable inventory, and strong support.

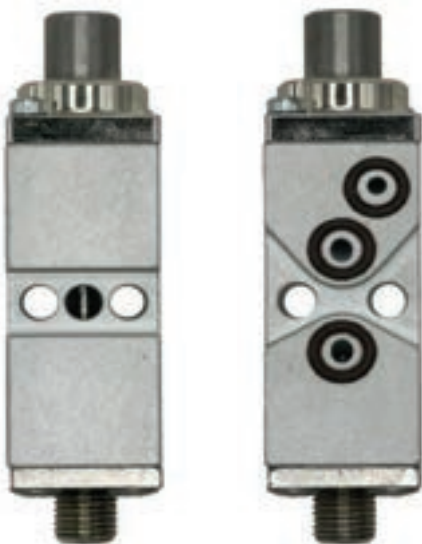

MODULES

Replacement for Nordson SolidBlue S

Air-open, Spring-closed module design delivering precise adhesive control while withstanding continuous production cycles with minimal maintenance.

NORDSON	GLENMAR	DESCRIPTION	PRICE
1052925	GM-52925	SolidBlue S H200 Module - G100 Blue AO/SC	\$135.00
272282	GM-72282	ClassicBlue H200 Module - G100 Blue AO/SC	\$135.00
276119	GM-76119	ClassicBlue H200 Module - G100 Blue AO/SC	\$135.00
1048115	GM-48115	ClassicBlue H200 Module - G100 Blue AO/SC	\$135.00

Replacement for Nordson SolidBlue A

Air-open, Air-closed module design delivering precise adhesive control while withstanding continuous production cycles with minimal maintenance.

NORDSON	GLENMAR	DESCRIPTION	PRICE
1052927	GM-52927	Solidblue A H200 Module - G100 Blue AO/AC	\$150.00
1054951	GM-54951	Blank Module with Cutout SolidBlue/SureBead	\$120.00

MODULES

Replacement for Nordson ClassicBlue Slot Modules

Designed for precise adhesive dispensing. Engineered for industrial environments, this module integrates seamlessly with Nordson ClassicBlue systems.

NORDSON	GLENMAR	DESCRIPTION	PRICE
1051718	GM-51718	ClassicBlue Slot Module 0.38" – G100S	\$330.00
1051719	GM-51719	ClassicBlue Slot Module 0.50" – G100S	\$330.00
1051720	GM-51720	ClassicBlue Slot Module 0.75" – G100S	\$330.00
1051721	GM-51721	ClassicBlue Slot Module 2.00" – G100S	\$330.00

Replacement for Nordson Zero Cavity AO/AC

Air-open, Air-closed module design delivering precise adhesive control while withstanding continuous production cycles with minimal maintenance.

NORDSON	GLENMAR	DESCRIPTION	PRICE
1051703	GM-51703	400 Series Replacement Module – G100ZAA	\$460.00

MODULES

Replacement for Nordson® ClassicBlue ZE

Designed for precise adhesive dispensing. Engineered for industrial environments, this module integrates seamlessly with Nordson ClassicBlue systems.

NORDSON	GLENMAR	DESCRIPTION	PRICE
1054376	GM-54376	ClassicBlue ZE Replacement 0.012 – G100ZA-EX	\$785.00
1051736	GM-51736	ClassicBlue ZE Replacement 0.020 – G100ZA-EX	\$785.00
1051737	GM-51737	ClassicBlue ZE Replacement 0.032 – G100ZA-EX	\$785.00
1051738	GM-51738	ClassicBlue ZE Replacement 0.040 – G100ZA-EX	\$785.00

Replacement for Nordson Zero Cavity

Designed for seamless compatibility with Nordson Hot Melt Systems.

Nozzle Sizes from 0.012" to 0.032"

NORDSON	GLENMAR	DESCRIPTION	PRICE
276516	GM-76516	Zero Cavity Module 0.012"	\$460.00
276517	GM-76517	Zero Cavity Module 0.016"	\$460.00
276518	GM-76518	Zero Cavity Module 0.020"	\$460.00
276519	GM-76519	Zero Cavity Module 0.032"	\$460.00

MODULES

Replacement for Nordson [Zero Cavity](#)
w/ Needle Adjustment

Designed for seamless compatibility with Nordson Hot Melt Systems.

Nozzle Sizes from 0.010" to 0.040"

NORDSON	GLENMAR	DESCRIPTION	PRICE
1051704	GM-51704	Zero Cavity Module w/ Needle Adjustment 0.010"	\$425.00
1051741	GM-51741	Zero Cavity Module w/ Needle Adjustment 0.012"	\$425.00
1054379	GM-54379	Zero Cavity Module w/ Needle Adjustment 0.012"	\$425.00
1051742	GM-51742	Zero Cavity Module w/ Needle Adjustment 0.016"	\$425.00
1051743	GM-51743	Zero Cavity Module w/ Needle Adjustment 0.020"	\$425.00
1051744	GM-51744	Zero Cavity Module w/ Needle Adjustment 0.032"	\$425.00
1051745	GM-51745	Zero Cavity Module w/ Needle Adjustment 0.040"	\$425.00

MODULES

Replacement for Nordson H2O Modules

This module integrates seamlessly into H2O systems, supporting high-performance adhesive dispensing.

NORDSON	GLENMAR	DESCRIPTION	PRICE
153011	GM-53011	H2O Module - G10 Module	\$210.00
272549	GM-72549	H2O Module Large Ball and Seat - G10 Module	\$285.00

Replacement for Nordson MiniBlue II, Ball and Seat Modules

MiniBlue II hot melt applicators provide the longest service life of any pneumatic gun in the packaging industry.

You will reduce maintenance, downtime and replacement parts costs with MiniBlue II applicators.

NORDSON	GLENMAR	DESCRIPTION	PRICE
1095703	GM-95703	MiniBlue II BAS Module - G300 Mini Standard	\$220.00
1099966	GM-99966	MiniBlue II BAS Module - G300 Mini Standard	\$220.00
1120093	GM-20093	MiniBlue II Blank Module - G300 Mini Standard	\$120.00

MODULES

Replacement for Nordson MiniBlue II, Mini Zero Modules

MiniBlue II hot melt applicators provide the longest service life of any pneumatic gun in the packaging industry.

With our replacement modules you will reduce maintenance, downtime and replacement parts costs for your MiniBlue II applicators.

NORDSON	GLENMAR	DESCRIPTION	PRICE
1072928	GM-72928	MiniBlue II Module – G300 Mini Zero 0.008"	\$280.00
1121479	GM-21479	MiniBlue II Module – G300 Mini Zero 0.008"	\$280.00
1099967	GM-99967	MiniBlue II Module – G300 Mini Zero 0.008"	\$280.00

Replacement for Nordson Series AD-31 Extrusion Hand-Held Applicator

Our replacement for Nordson AD-31 extrusion applicator offers precise hot melt dispensing. It supports standard and extended nozzles with varying orifice sizes, and includes a 360° swivel connector to prevent hose twisting.

RTD or preset temperature sensors ensure consistent adhesive flow, even with high-viscosity or filled materials.

HAND APPLICATORS

Replacement for Nordson AD-31 Swirl and Wide Pattern Swirl Hand-Held Applicators

Glenmar's replacement for Nordson AD-31 swirl and wide pattern swirl applicators deliver a helical spray pattern ideal for pressure sensitive adhesives and delicate substrates.

With adjustable pattern widths from 6 to 152 mm and a lightweight 0.80 kg design, they offer excellent control and ease of use.

Replacement for Nordson Saturn Filter Mesh: 50, 100, 200

Glenmar's replacement for Nordson Saturn filter mesh is designed for precision filtration within adhesive systems. Manufactured to OEM standards, it fits directly into compatible in-line filter bodies and is available in multiple mesh sizes

\$16.65

FILTERS

G900FILTANK - 100

Triple mesh tank filter. Compatible with Nordson Pro Blue. Designed to capture fine contaminants and protect pump and hose components, it features durable stainless steel mesh, high-temperature resistance, and secure fitment for consistent filtration and system

\$89.25

RTD

\$37.75

Heaters

Glenmar supplies high-quality cartridge heaters, RTDs, and cordsets for use in Nordson hot melt adhesive systems. Our heaters provide efficient, consistent heat transfer in tanks, manifolds, and hoses, while RTDs ensure precise temperature monitoring for optimal system performance. We also offer durable, high-temperature cordsets for reliable electrical connectivity and integration.

Please provide the following when ordering heaters:

- Diameter
- Wattage
- Voltage
- Lead Length

Example: 3/8" Diameter, 150 Watts, 240 Volts, 26-inch Black Teflon Leads

CORDSETS

We have all sizes, finishes, and voltages for any of your Nordson Compatible Cordset needs.

Electrical Nordson compatible cordset with RTD sensor for Nordson® applicator gun used on Model 2300/3000/ProBlue and DuraBlue heated hoses.

\$179.00

HOSES

Replacement for Nordson ProBlue 2300, and 3000 Series - Heated Hot Melt Hoses Standard 240V

Designed for consistent adhesive temperature control and durability in demanding applications. Compatible with Nordson 2000, IV, V, 3000, ProBlue®, and DuraBlue equipment (automatic and handgun). Built with rugged outer jacketing, precision heating elements, and high-temp insulation to ensure reliable adhesive flow and extended hose life.

PROBLUE PUMP

Replacement for Nordson ProBlue Hot Melt Pump

Glenmar's replacement pump is fully compatible with Nordson ProBlue 4, 7, and 10 melters. Featuring a 14:1 pressure ratio, it delivers up to 32.7 kg/hr (72 lb/hr) of adhesive with consistent flow and low shear. Operating within an air range of 10–60 psi, it provides reliable pressure control for demanding hot melt applications.

Built in the USA with OEM grade materials, the pump includes a double-acting piston design for smooth, long lasting performance. It installs directly into existing systems with no modifications, making it an ideal solution for packaging, hygiene, and nonwoven production lines.

MODULES

7075 ALUMINUM

Its superior strength-to-weight ratio and excellent fatigue resistance make it a preferred material for manufacturing our replacement for Nordson universal modules.

STAINLESS STEEL

The added strength and durability of the Stainless Steel version of our replacements for Nordson Universal Modules help prevent accidental breakage of the back Ear Clip caused by overtightening the front screw when installing a new nozzle. This is just one of several benefits this upgrade provides.

NOZZLES

Replacement for Nordson Universal Slot Die Nozzle

Engineered to mount on Universal-series modules, this slot nozzle converts a standard Universal spray station into a precise mini-slot applicator for narrow, edge-clean stripes on hygiene webs, enabling chassis and ear lamination or partial-coverage construction with tighter add-on control and less overspray while preserving the Universal platform's fast changeover and service simplicity.

DESCRIPTION	PRICE

APPLICATORS

HIGH PERFORMANCE - GLENMAR ALTA MAZE APPLICATOR

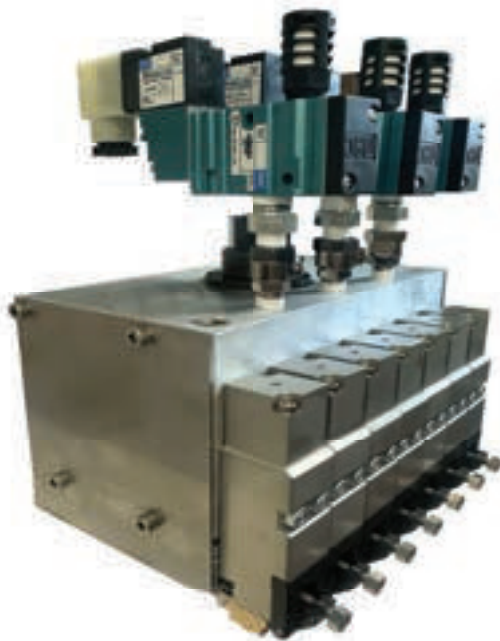

Replacement for Nordson Alta Head applicators

Glenmar's replacement for Nordson Alta applicator heads is a fully compatible and enhanced solution for hot melt spray and slot coating in wide-web applications.

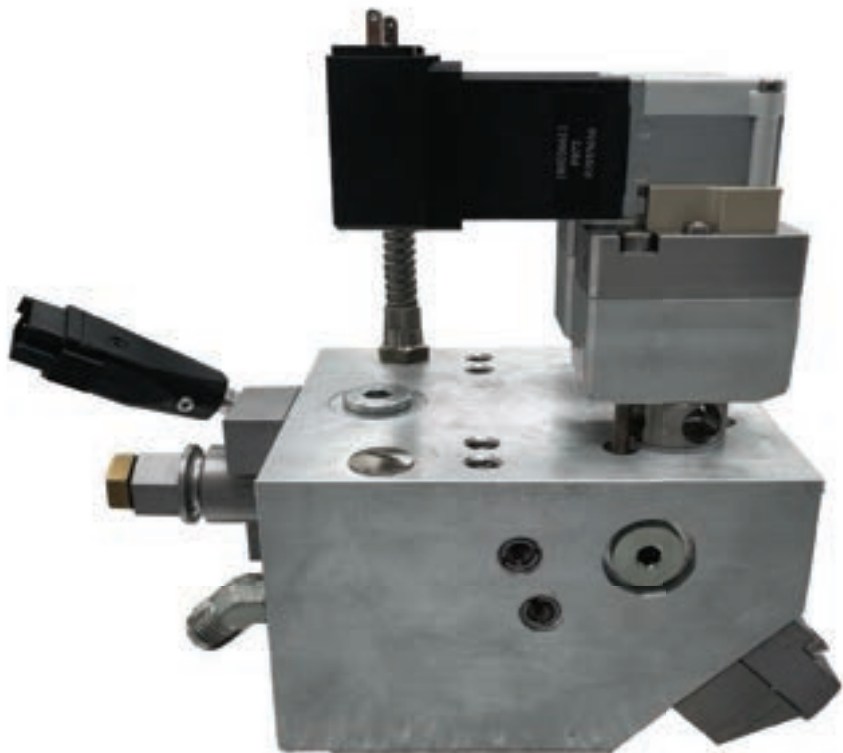

Featuring the same fit and function to the original Alta head it improves upon the design with independent air and hot-melt temperature control for enhanced pattern stability and thermal efficiency.

Supporting up to 96 one-inch hydraulic modules and operation up to 250 °C it works seamlessly with Nordson UM25/UM50 modules, universal nozzles including Melt-Blown, 9/16" UFN hydraulic connections and 24 VDC solenoid valves

APPLICATORS

HIGH PERFORMANCE - SPEED-COAT SLOT APPLICATOR

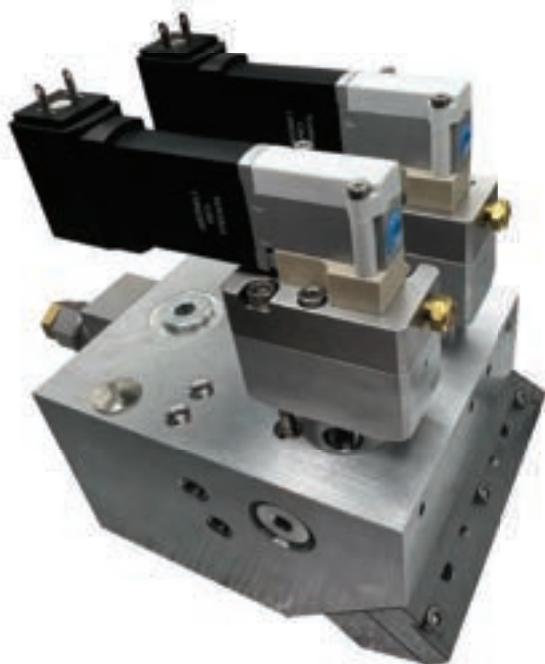

Replacement for Nordson Speed-Coat Slot Applicator

Glenmar's replacement for Nordson Speed-Coat slot applicator head provides fast, uniform adhesive coating for high-speed packaging and converting lines.

Designed for precision and reliability, it ensures consistent adhesive laydown across wide substrates at demanding production speeds.

Fully compatible with existing Speed-Coat systems, this replacement head offers a cost-effective solution without compromising performance.

APPLICATORS

GLENMAR DUAL CORDSET ALTA-MAZE APPLICATORS

Compatible with

Universal modules:

- UM22
- UM25
- UM50
- SpeedCoat

Spray nozzles:

- CF
- Summit
- Signature
- ControlCoat
- SureWrap
- Allegro

With two bayonet cordsets, this applicator provides independent electrical connections that allow control of two groups of modules separately, enabling dual-pattern capability such as elastic attachment and construction adhesive from a single head. It is designed to exceed Nordson performance at a lower cost, backed by Glenmar's robust manufacturing and support.

APPLICATORS

Replacement for Nordson CF200 Modules & Applicators

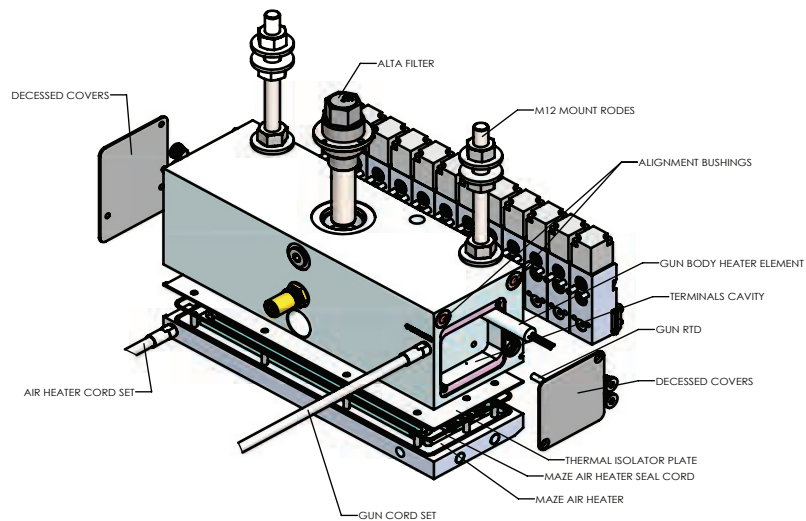

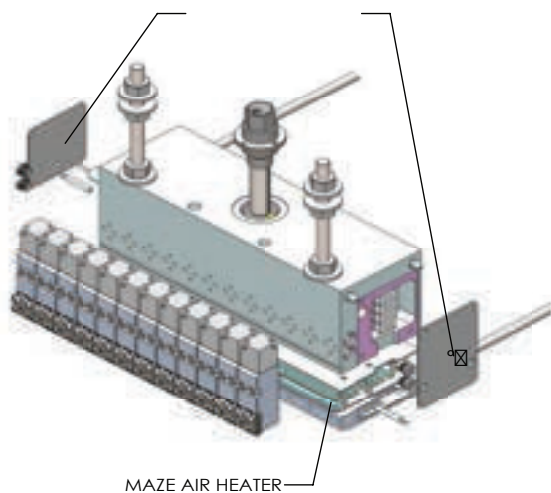

Glenmar's G100F (H200F) modules are designed for precise adhesive dispensing. Engineered for industrial environments, this module integrates seamlessly with Nordson ClassicBlue systems.

Glenmar's replacement for the Nordson CF200 spray applicator delivers reliable, fine-pattern hot melt spraying in packaging and nonwoven lines. Its modular design enables precise edge control, reducing overspray while offering rebuildable performance. Fully compatible with twist-on disk or unibody-style CF nozzles, Nordson CF200 pneumatic modules, hoses, filters, and manifold assemblies, it integrates seamlessly into existing systems.

HOSES & GEAR PUMPS

Replacement for Nordson High Temperature Hoses

Our replacements for Nordson High temperature hoses are made from high-tech components. They offer exceptional flexibility for both manual hand gun and robotic applications while being reinforced to withstand external and internal structural deformation caused by dynamic movements.

Different lengths available:

NORDSON	GLENMAR	DESCRIPTION	PRICE
1040719	GM-40719	Hot-melt Heated Hose 8.0 m TC 80-08-HT PT100	\$2,465.00
222817	GM-22817	Hot-melt Heated Hose 11.0 m TC-110-13 PT100	\$2,465.00
222818	GM-22818	Hot-melt Heated Hose 12.0 m TC-120-13 PT100	\$2,465.00
222823	GM-22823	Hot-melt Heated Hose 11.0 m TC-110-8 PT100	\$2,465.00

Replacement for Nordson Gear Pump

Our replacements for Nordson gear pumps are widely used in hot melt adhesive systems, providing consistent and precise adhesive flow for demanding industrial applications. Engineered for high reliability, they deliver metered flow rates even under intense pressure and elevated temperatures. These pumps are fully compatible with Nordson® MX, PR, and VersaBlue® series melters.

NORDSON	GLENMAR	DESCRIPTION	PRICE
7109715	GM-09715	Gear pump SN0030 (0.30 cc/rev)	\$1,735.00
259598	GM-59598	Gear pump SN0030 (0.30 cc/rev)	\$1,735.00
729105	GM-29105	Gear pump SN0046 (0.46 cc/rev)	\$1,735.00
254406	GM-54406	Gear pump SN0046 (0.46 cc/rev)	\$1,735.00

REBUILD KITS

Glenmar technology service kits provide all the essential components needed to rebuild and restore your UM22®, UM25®, and UM50® modules. The minor kit (1049909) includes critical wear parts such as the fully assembled cartridge for routine maintenance, while the major kit (1049908) adds components like the needle-and-piston assembly and compression spring for a full overhaul.

Replacement for Nordson UM22, UM25, and UM50 Minor Service Kit PN#1049909

Replacement for Nordson UM22, UM25, and UM50 Major Service Kit PN#1049908

NORDSON	GLENMAR	DESCRIPTION	PRICE

APPLICATORS

GW-ALT head 12" compatible with Nordson Universal Modules + ITW UFD nozzles

GW-ALTA Head 12" is an innovative hybrid applicator that merges the robustness of Nordson Universal modules with the precision spray technology of ITW DYNATEC UFD (Uniform Fiber Deposition) nozzles. This custom-engineered solution offers converters a high-performance alternative for wide web nonwoven applications, especially in hygiene production lines.

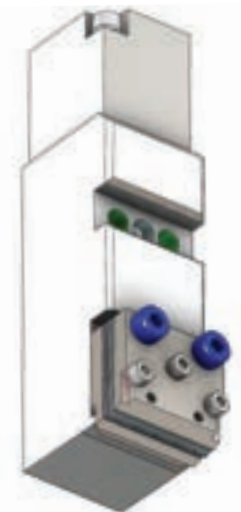

Designed for compatibility and flexibility, the GW-ALTA head allows manufacturers already using Nordson platforms to upgrade to UFD-level spray performance without overhauling their entire system.

Glenmar's Replacement Hybrid for Nordson UM Module compatible with ITW Dynatec UFD HS Nozzles

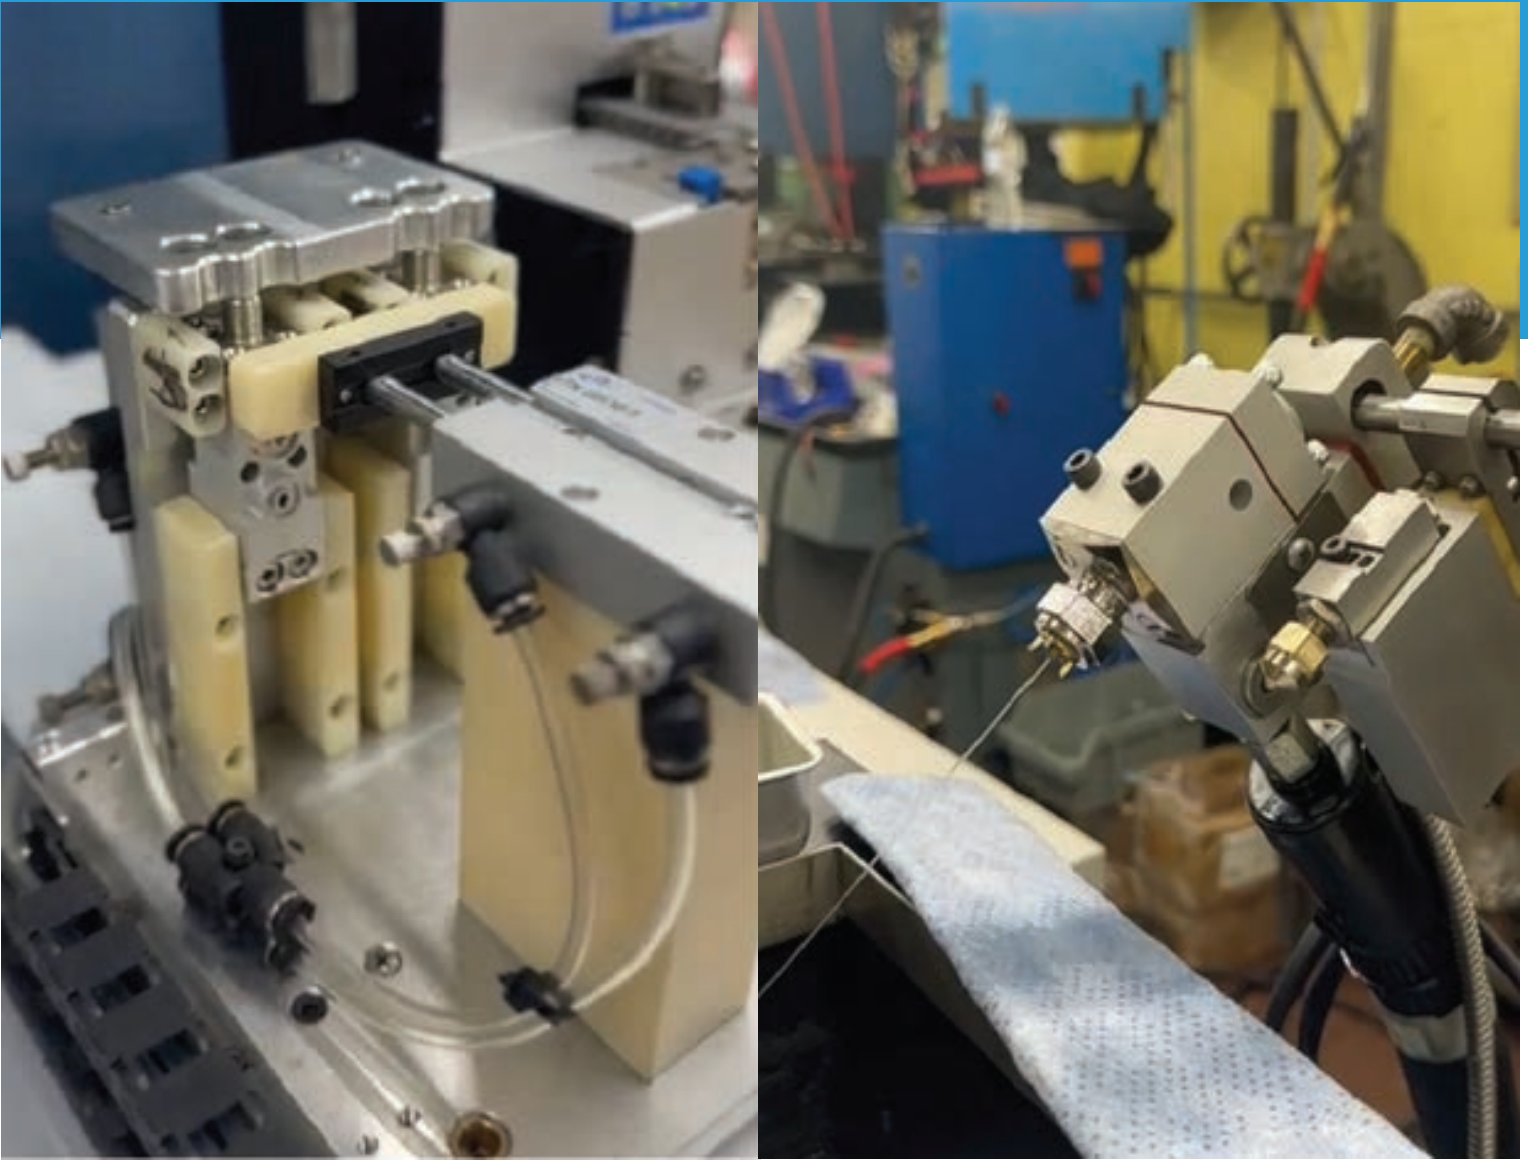

Glenmar's Replacement for ITW Dynatec UFD HS Nozzles

THE BEST OF BOTH WORLDS

**NORDSON - INSIDE
ITW DYNATEC - OUTSIDE**

Thank You for Choosing Glenmar Technology

Glenmar Technology is a trusted global manufacturer of high-quality, cost-effective replacement parts for Nordson and ITW Dynatec hot melt adhesive systems. From our facility in New Jersey, USA, we use advanced manufacturing processes to produce modules, nozzles, applicators, and glue guns that meet or exceed OEM standards, at a significantly lower cost.

With more than 20 years of experience serving customers across North America, Latin America, Europe, Africa and Asia, Glenmar has become a reliable partner for companies looking to reduce operational costs without compromising performance or uptime. Our solutions are engineered for precision, repeatability, and long-term reliability across a wide range of industrial applications.

We offer worldwide shipping and flexible payment options including credit card, PayPal, and wire transfer. For more information, product cross-references, or to place an order, visit our website and enter the OEM part number in the search bar.
